

## PROMOTED EMPLOYEES IN 2012

The year 2012 marked a significant change in these employees' career with PAGSS. A good catch of "luck" maybe, but certainly, theirs is a result of keeping in mind that good work is a habit. Yes, a good break comes however, not all the time. Promotion is exactly the equation of chance plus the perfect blend of hard work each day and innate positive work attitude. It only sparks when opportunity meets the prepared one.

These employees who received promotions welcomed another opportunity to move up in the ladder of their careers. As everyone knows that moving up always entails higher expectations and enhanced responsibilities, but it definitely guarantees uplift in one's spirit, and not to mention a raise in rewards of course. One who desires to be in this league of individuals should give no room for skepticism, but only a relentless courage to repeat positive performance thru a continued push and pull.

To all of you, thank you very much indeed for your determination to advance your careers in the Company. Your aspiration for advancement is one signal of our forward march towards the vision of PAGSS.

Congratulations!
